Subject: Atlantic Coast Pipeline

Dear Secretary Regan:

Please do not grant the 401 water certification permit for the ACP!

We are convinced that this pipeline is completely unjustified and will be dangerous, damaging and costly for North Carolina.

It will add pollution to the environment from the increased fracking of the natural gas to feed the pipeline and it will exacerbate global warming when the additional gas is shipped and burned.

Please deny the 401 water certification permit!

Thank you,
Ron and Nancy Bryant
